**Pay@Table™** is an inspiring new and secure way to improve customer service and save you money. It is the latest and most advanced portable payment system available anywhere, and it is guaranteed to make your daily business activities **faster, simpler and less tiring than before.**

**Pay@Table™** is a solution dedicated and tailored to the **hospitality** sector. It has been thought and conceived to respond to the restaurants and hotels specific requirements, to cope with all issues arising from the payment transaction and to improve your global business.

The **Pay@Table™** solution by Ingenico makes payment to the table (or counter, sidewalk or anywhere else within its 200m range) fast, simple and reliable.

It **benefits directly to your staff, your customers and your global activity** while improving security, productivity and efficiency.

The new **Pay@Table™** solution features the **i7000 series** of short-range transaction terminals with outstanding durability and convenience.

Considered as the **most polyvalent and complete portable range of the market**, the Ingenico Portable Range is offered with a **set of software solutions** improving the service you propose to your customer and the reputation of your business.

Ingenico offers you **Pay@Table™** wherever you are **all over the world**. From France to Canada passing by Brasil and UK, **Pay@Table** has been introduced with a tremendous success revolutionizing the world of payment systems in the Hospitality sector!

The **Pay@Table™** series of transaction terminals have been **awarded the coveted Frost & Sullivan Point-of-Sale Systems Technology Award for 2004**. This award recognizes outstanding companies that have consistently led the way in terms of technological innovation and enterprise. It recognizes Ingenico as the first to launch a Bluetooth certified terminal in the Point-of-Sale (POS) market.

# Ingenico 7780

Backlit keyboard is easy to see

Easy load 15 lines per second thermal printer

Base with dial, RS232 and Ethernet

Can charge spare battery on base

Ingenico was awarded the 2004 Frost & Sullivan Technology of the Year Award in recognition of its innovative technological outlook by being the first to launch a Bluetooth terminal in the POS market.

## Built for FAST transaction authorization

- Compact and durable handset can be handed to the customer to complete a transaction.
- Bluetooth technology provides a fast, secure and proven radio link.
- Proven device performance and capability through global deployments.
- Long vertical magnetic card swipe path increases operator first pass read success.
- Ethernet provides real-time transaction authorization.

## Intelligent battery and LAN capability maximize customer service

- Removable and intelligent Lithium Ion battery pack is easy to change, fast to charge and provides long-term use between charges.
- On-screen battery indicator tells operator how much battery remains.
- A single i7780 base can wirelessly communicate with up to seven i7780 terminals, providing a totally wireless LAN.
- The optional Ethernet-enabled versatile base allows wireless connection of handsets directly into existing LAN's.

Processor	32 bit ARM processor
Memory	2 MB SRAM and 4 MB Flash
Printer	15 lines per second thermal printer Easy load with end of paper roll detection Full graphics printing capability
Display	LCD display, 128x64 pixels and graphics capability Backlit
Keypad	18 keys including 3 screen addressable function keys Backlit for operator convenience
Communications	Spread spectrum Class 1 Bluetooth 2.4GHz Single base can serve up to seven terminals V34 modem, transfers up to 33,600 bits per second Synchronous and asynchronous transmission Ethernet and TCP/IP
Magnetic stripe reader	Tracks 1, 2 & 3
Smart card reader	EMVCo approved Level 1 UNICAPT 32 EMV Level 2 approved ISO 7816 1-2-3, Async/Sync. T=0 & T=1 Optional support for up to 3 Secure Access Modules
Security	Visa approved PED, on-line/off-line DES or 3DES DUKPT or MasterSession Secure local and remote software downloading
Connectivity	Ethernet port (2) RS232 ports V34 modem
Programming & downloading	UNICAPT secure multi-application platform and development environment Programmable in C
Lens	Customizable with logo (option)
Accessories	Spare battery pack, charging base, protective holster
Environmental	Operating temperature: 41F to 104F (+5°C to +40°C) Storage temperature: -2F to 158F (-20°C to +70°C)
Dimensions	Terminal: 20.9 x 9.6 x 6 cm (8.2 x 3.77 x 2.36 in.) Base: 20.2 x 9.1 x 3.5 cm (7.95 x 3.58 x 1.37 in.)
Weight	Terminal without batteries: 691 gr. (1.52 lb) Batteries: 176 gr. (6.2 oz) Base: 211 gr. (7.5 oz)
